The screenshot shows the Japanese Collocation Search Interface with the following components and annotations:

- Search keyword input box:** Located at the top left, containing the text "やる する 行う". An annotation box points to it with the text "Search keyword input box Up to 4 words".
- Verbal (Noun Particle Verb) dropdown:** Located next to the input box, showing "Verbal (Noun Particle Verb)".
- Search and Clear buttons:** Located to the right of the dropdown.
- Sort dropdown:** Located at the top right, showing "Frequency".
- Similar words bar:** Located below the input box, showing a horizontal bar with colored segments and the text "やる する 行う". An annotation box points to it with the text "Similar words based on input keywords".
- Collocates list:** A large list of words and phrases, each accompanied by a relative frequency bar graph. An annotation box points to the bar graphs with the text "Relative frequency bar graphs displayed next to collocates".

## Search keyword input box

# Up to 4 words

# Similar words based on input keywords

# Relative frequency bar graphs displayed next to collocates
